PROJECTS

Responsive Developer Portfolio

Jan 2026 – Present

<https://prakashseervi61.github.io/portfolio>

- Built a high-performance personal portfolio in React and Framer Motion, implementing complex, responsive animations without sacrificing load speed.
- Optimized for mobile through lazy loading and efficient asset delivery, achieving strong Lighthouse performance scores across devices.

myFlix — Movie Browsing App

Oct 2025 – Jan 2026

<https://prakashseervi61.github.io/myFlix/>

- Developed a dynamic movie browsing application using React and Tailwind CSS with a fully responsive, mobile-first layout.
- Integrated a third-party movie data API to power real-time search and filtering, handling async data fetching and error states.

ToDo List Web App

Sep 2025 – Oct 2025

<https://prakashseervi61.github.io/ToDo-List-Web-App/>

- Built a full CRUD task-management app for daily productivity, with create, edit, complete, and delete flows.
- Implemented LocalStorage persistence so user tasks remain available and secure across browser sessions without a backend.
